

## PSD/Emission Offset Checklist Instructions

### PSD/EMISSION OFFSET CHECKLIST – FORM PSD/EO-01

Complete this form for all applications subject to review under 326 IAC 2-2 Prevention of Significant Deterioration (PSD) Requirements and/or 326 IAC 2-3 Emission Offset (EO). This PSD/EO application checklist has been developed to assist applicants and permit reviewers in determining if the application is complete and the review of the application can proceed. When completed, the submittal and review of the application will proceed. The checklist is not to be used to determine if the information is technically adequate, rather its use is confined to determining if this portion of the application is “administratively” complete. Refer to the most recent edition of the United States Environmental Protection Agency (US EPA) document entitled, “New Source Review Workshop Manual” for guidance and definition of terms.

Place a check mark in the “C” column if the information submitted is complete with respect to the rule requirements or place a check mark in the “I” column if the information submitted is incomplete with respect to the rule requirements. If the particular rule citation is not applicable to the application being evaluated, place a check mark in the “N/A” column. Indicate if the required information is provided with this form in the “Attached?” column by recording a “Y” for “yes” and an “N” for “no”. Provide the applicable information required by each section of the rule as a separate attachment. Include the source name and source ID on each page of the attachments. ***The application may be deemed incomplete if sufficient documentation is not submitted.***

**NOTE:** *The most recent edition of the “New Source Review Workshop Manual”, as of the date these forms were published, is the October 1990 Draft edition. The manual is available at the following website: <http://www.epa.gov:80/rgytgrnj/programs/artd/air/nsr/nsrmemos/1990wman.pdf>.*

#### Source Information

This section is self-explanatory. Please indicate the applicant's name and the source ID assigned by IDEM, OAM, if a number has been previously assigned.

#### A. PSD Checklist:

The PSD checklist applies to all applications subject to 326 IAC 2-2 Prevention of Significant Deterioration (PSD) Requirements. The sections within 326 IAC 2-2 which require the applicant to submit information are indicated in Table A.

#### B. Emission Offset Checklist:

The EO checklist applies to all applications subject to 326 IAC 2-3 Emission Offset. The sections within 326 IAC 2-3 which require the applicant to submit information are indicated in Table B.
